WP 7 – Regulation and Financing

Objectives

To develop the appropriate European regulatory target framework – in legal, economic and financial properties – for the development of integrated offshore electricity transmission infrastructures aiming

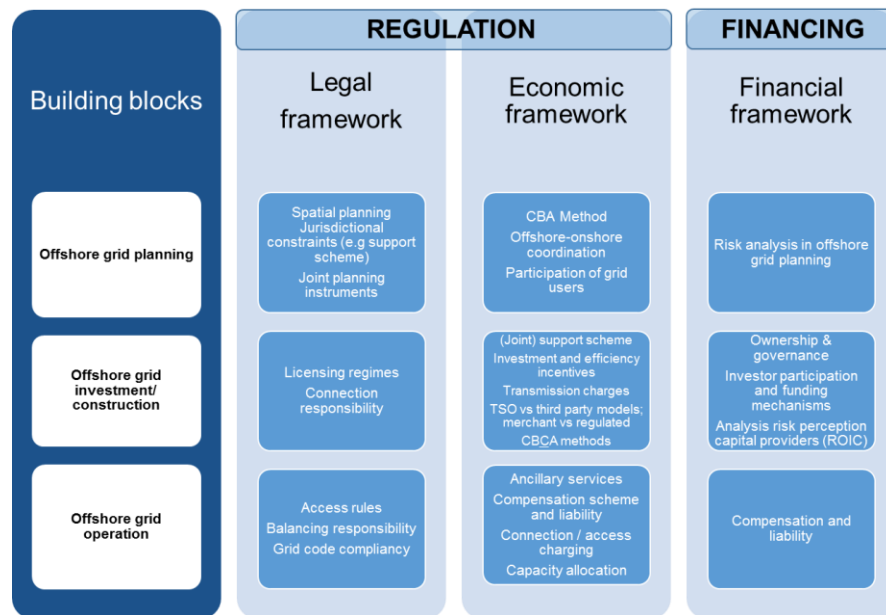

- to foster efficient investments by creating a level playing field;
- to coordinate the offshore grid development and the connection of wind farms; and
- to ensure its financeability or bankability

Key Achievements

- ✓ Submitted reports on legal, economic and financial framework and policy recommendations
- ✓ Completion of CBA methodology

Scope

WP7 Setup

Progress

- 11 of 12 Deliverables are submitted
- 4 Deliverables submitted in 2019
 - D7.2 Designing the Target Legal Framework for a MOG
 - D7.4 Economic Framework for a MOG
 - D7.6 Financing Framework for a MOG
 - D7.9 Final policy recommendations

- Outstanding Deliverables
 - Final Stakeholder Report (end of the project term)
